on most components

MODEL 5000 Insulation Blowing Machine

\$17,700.00 Cdn

Back by popular demand!

Overwhelming feedback from happy customers convinced us to re-introduce this model, with additional updates based upon current technological advances.

The **MODEL 5000** is our mid-size truck mount machine.

This machine is ideally suited for both new construction and retrofit work.

The **Model 5000** excels in applications where versatility is more important than speed.

Quality has not been sacrificed in order to provide the substantial savings this machine offers.
