MODEL 5500 Insulation Blowing Machine

Once again setting *new standards* in the industry, we present the year 2000 *flagship* of our fleet of high efficiency workhorses.

Why is it the *best*? Because we extensively test, research and respond to all the feedback we get.

Over the last 29 years we have maintained a consistent policy of constant improvement to meet the changing needs of the industry, making us the supplier of 1st choice.

This has enabled us to offer the longest warranties of any insulation blowing machine made today.
